

# EndoGrip™ Grasping Forceps

**Position confidently with smooth, 360° rotation.**

EndoGrip™ Grasping Forceps position precisely while the rat tooth, alligator jaw ensures a powerful initial grab and secure retrieval.

# EndoGrip™ Grasping Forceps

## Featuring the Smart Handle.

The EndoGrip™ Grasping Forceps is designed to reduce movements. Without letting go of the handle, simply turn the positioning barrel to rotate the forceps 360° in either direction to retrieve objects from the gastrointestinal tract.

## Secure, grab and hold design.

The versatile rat tooth design and serrated jaw holds onto the smallest surfaces for a confident grip.

### EndoGrip™ Grasping Forceps Single-use, sterile

Part No.	Description	Length (cm)	Minimum Working Channel (mm)	Qty/Case
1177-01	Rat Tooth-Alligator Combo	230	2.8	5

The powerful rat-tooth tip and serrated jaw design enable a secure grip on a wide variety of objects and surfaces.

Full, 360° positioning is achieved with a smartly designed rotating barrel that enables operation without letting go of the handle.

EndoGrip™ Grasping Forceps are ideal for both foreign body and stent removal. Grasp small objects of varying surfaces confidently.
