2025 Reimbursement Codes for MiVu[™]

(Esophageal Mucosal Integrity Testing by Electrical Impedance, Transoral, Includes EG, EGD)

Effective January 1, 2022, the descriptor for HCPCS code C9777 has been revised to “Esophageal mucosal integrity testing by electrical impedance, transoral, includes esophagoscopy or esophagogastroduodenoscopy” to describe the service associated with performing both a MiVu test and an esophagoscopy or esophagogastroduodenoscopy test. When performed together, HOPDs should report only HCPCS code C9777 and not report a separate code for the esophagoscopy or esophagogastroduodenoscopy. Physicians should use unlisted CPT^{®1} code 43499 to report the MiVu Mucosal Testing. The table below contains CPT[®] codes which may be appropriate to describe procedures associated with MiVu Mucosal Testing and 2025 Medicare national average payment.
