

Capture™ Polyp Traps

Secure Retrieval

Confidently and efficiently manage specimen retrieval with two distinct trap designs for safe, reliable tissue capture.

Polyp Traps

Clear Identification

Individual compartments ensure safe and easy handling with visual confirmation.

Click-Lock Trays

Tactile and audible click-lock mechanism ensures the tray is securely locked in place, minimizing the risk of specimen loss.

Polyp Picks

The functional design provides easy and contact-free specimen removal.

Color-Coded

Keep multiple specimens safe, separate, and secure with color-coded trays that switch quickly without interrupting suction.

4-Chamber Design

Separate compartments enable efficient and secure handling with clear visual confirmation.

Indexing System

Indicator lid and numbered chambers for specimen localization with alternating bypass for procedural continuity.
