

# GIJaw™ Biopsy Forceps

## Optimal Acquisition

Smooth, reliable actuation and optimized grasping force ensures efficient, precise tissue acquisition.

## Biopsy Forceps

# Reliable Performance

Expertly designed and manufactured for consistent tissue sampling. Experience greater ease and precision with a longer needle and strong, swinging jaws.

### Longer Needle

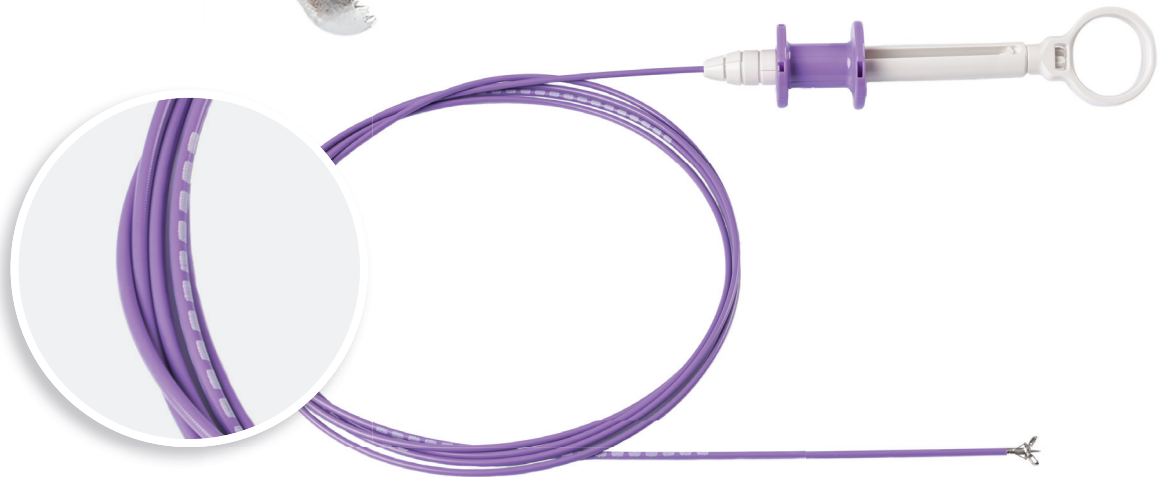

A larger, sharper needle facilitates secure and efficient tissue capture, and allows for multiple bites when needed.

### Jumbo Forceps

Experience 50% greater cup volume compared to the standard forceps.

### Positioning Markers

The markers aid as visual cues on insertion and withdrawal.

### Swinging Jaws

Wide pivot angle and serrated teeth aid in optimal placement onto the target site.
