

# Custom Endoscopy Kits

## Streamlined Ordering

Simplify your workflow with customizable procedure kits designed to standardize infection prevention practices, reduce procedural set-up time, and support more effective post-procedure cleaning.

## Endoscopy Kits

# Versatile Kit Configurations

Design a custom endoscopy kit with the essential items your facility needs for upper and lower GI procedures — conveniently packaged and ready for immediate use.

### CleanFreak® Endoscope Cleaning Products

Post-procedural cleaning is effective and efficient with user-friendly, single-use tools including soft-bristled cleaning brushes, sponges, and an absorbent endoscope transport pad. Choose any CleanFreak product to build your custom endoscopy kit.

### Procedural Components

With flexible kit configurations, you can build procedure kits that align with your facility's workflow and customized with the components you need. Available items for a custom kit include, but are not limited to:

- BullDog® Disposable Endoscope Valves — compatible with Olympus®, Fujifilm®, and Pentax® endoscopes
- CareGuard® Bite Blocks — color-coded for single-use
- Biohazard stickers
- Dry and enzymatic sponges
- Gauze pads — 4x4" woven and non-woven
- Lubricating jelly (1.25 and 2.0 oz tube options)
- Slip tip and luer lock syringes
- Suction tubing
